

THE RING'S THE THING

Brooke Gregson creates unique, ornate jewellery which reflects her fascination with Astronomy. Earthy, but with a modern touch, there is a keen use of blues, greens and natural hues. This focus is encapsulated in the stunning 'Boulder Opal and Pave Diamond Triangle Ring'. The item is fashioned from yellow gold, featuring a triangular-shaped boulder opal, surrounded with pavé set white diamonds, in an 18K gold milligrain setting. A must have for any collection.
